

Application for Scholarship to the Art of Problem Solving

The EMC² Corporation has generously provided the State Math Contest Committee with funds to sponsor scholarships to students in North Carolina for the purpose of taking an online course provided by the Art of Problem Solving. Any underclass student who qualifies for the State Finals Mathematics Contest at any level may apply for one of these scholarships. Preference will be given to females and minorities who are typically under-represented at the State Finals as well as students who win at the various levels of the State Mathematics Competitions. Arrangements have been made with the Art of Problem Solving to pay the first \$150 of your registration fee.

Students who are awarded scholarships must complete the course and submit a follow-up report on the course you take to the NCCTM and the EMC² Corporation.

Name: _____

Address: _____

Gender: M F

Email Address: _____

School: _____

School Address: _____

Current Math Course: _____

Current Math Teacher: _____
