

Results: Calculus Challenge Problem #13

This is the final problem for this year. Several schools have already closed for the summer and others are entering their final exam and end-of-year activities. Congratulations to everyone who participated. I hope you enjoyed the problems, saw some concepts of calculus used in new and interesting ways, and perhaps even learned something new.

Plaques will be sent to Barbara, Fred, and Ellen for their team's consistently outstanding work. It was always a pleasure to read you solutions and to see how you approached the problems.
